

**MARYLAND STATE DEPARTMENT OF EDUCATION**  
**Office of Child Care**  
**MEDICATION AUTHORIZATION FORM**

Regulations permit child care providers to give prescription and non-prescription medication to children in care under certain conditions with prior written permission (Section A) from the child's parent/guardian. A separate form is needed for each prescription or non-prescription medication to be administered to the child.

**PRESCRIPTION MEDICATIONS AND NON-PRESCRIPTION MEDICATIONS:** Prescription medications must be in a container labeled by the pharmacy or physician with the child's name, dosage, and expiration date. At least one dose of prescription medication must be given at home prior to the child's arrival at the child care facility. Non-prescription medications must be in the original manufacturer's container labeled with instructions for dosage and expiration date. Except for acetaminophen (Tylenol) and other topical medications, a provider may administer only one dose of non-prescription medication to a child per illness unless a licensed health practitioner provides written approval (Section B) for the administration of the non-prescription medication and the dosage. All medication shall be administered according to the instructions on the label of the medication container or a licensed health practitioner's written instructions, whichever are more recently dated. **An adult should bring the medication to the center/provider.**
